## **Report by the Trustee on the Administration of the Environment and Conservation Fund**

This report covers the financial year ending 31 March 2013.

### **Environment and Conservation Fund (ECF)**

2. In the 1993 Policy Address to the Legislative Council, the then Governor proposed to set up the ECF for funding education and research in relation to environmental and conservation matters.

3. The Environment and Conservation Fund Ordinance (the Ordinance), which established the ECF, was enacted in June 1994. An initial capital injection of \$50 million was then approved by the Finance Committee. The ECF came into operation in August 1994. In 1998, 2002, 2006, 2008 and 2011, the Finance Committee further approved injection of \$50 million, \$100 million, \$35 million, \$1,000 million and \$500 million respectively.

### **Trustee**

4. Section 5 of the Ordinance provides for the Secretary for the Environment to act as the trustee of the ECF.

### **ECF Committee and vetting of applications**

5. The ECF Committee, established in accordance with section 7 of the Ordinance, is to advise the trustee on the use of the ECF for the purposes of funding educational, research and other projects and activities in relation to environmental and conservation matters. The Committee consists of a chairman, not more than eight non-official members appointed by the Chief Executive for a term of two years and four ex-officio members. The membership list is on page 7.

6. The ECF Committee has established an Energy Conservation Projects Vetting Subcommittee to consider energy conservation projects under the three-year Buildings Energy Efficiency Funding Schemes which was ended on 7 April 2012 and the three-year funding scheme for Energy Conservation Projects for Non-government Organisations (NGOs) which was ended on 31 October 2012. The Subcommittee comprises ECF Committee members and other co-opted members. The membership list of the Energy Conservation Projects Vetting Subcommittee is on page 8.

7. The ECF Committee has established a Research Projects Vetting Subcommittee to consider research, technology demonstration and conference projects. The Subcommittee comprises ECF Committee members and co-opted members. The membership list of the Research Projects Vetting Subcommittee is on page 9.

8. The ECF Committee has also established a Waste Recovery Projects Vetting Subcommittee to vet community waste recovery project proposals, applications for the Programme on Source Separation of Waste, On-site Meal Portioning Projects in Schools and Food Waste Recycling Projects in Housing Estates. The Subcommittee comprises members of the ECF Committee, members of the Environmental Campaign Committee (ECC), members of the Waste Management Subcommittee of the Advisory Council on the Environment (ACE) and co-opted members. The membership list of the Waste Recovery Projects Vetting Subcommittee is on page 10.

9. The ECF Committee has entrusted the vetting of educational projects (including minor works projects) to the ECC. The reason for this arrangement is that the ECF Committee considers that the ECC has developed the expertise for considering such projects. The membership list of the ECC is on pages 11 to 12.

10. The Energy Conservation Projects Vetting Subcommittee, Research Projects Vetting Subcommittee, Waste Recovery Projects Vetting Subcommittee and ECC can approve grants up to \$2,000,000 for a project. For applications exceeding this limit, the recommendations of the Energy Conservation Projects Vetting Subcommittee, Research Projects Vetting Subcommittee, Waste Recovery Projects Vetting Subcommittee or ECC will have to be endorsed by the ECF Committee.

11. During the financial year 2012-2013, the ECF Committee considered partnership proposal from one charitable organisation for “Moving towards a Green NGO”. The ECF Committee also considered the annual budget of ECC for implementing territory-wide programmes for raising environmental awareness.

12. An Investment Committee has been established to set policies for investment and monitor the investment of the ECF. The membership list of the ECF Investment Committee is on page 13.

13. The Environmental Protection Department provides secretariat service to the ECF Committee, the Energy Conservation Projects Vetting Subcommittee, the Research Projects

---

Vetting Subcommittee, the Waste Recovery Projects Vetting Subcommittee, the Investment Committee and the ECC.

14. Applications can be submitted any time using the prescribed application forms, which are available on ECF's website. The ECF Committee and its Vetting Subcommittees and the ECC usually meet quarterly to consider applications.

### **Criteria for vetting applications**

15. Applications from local non-profit making organisations and community groups will be considered for funding support. Local companies incorporated under the Companies Ordinance (Cap. 32) of Hong Kong may apply for funding for technology demonstration projects on waste minimisation and recycling. The following broad criteria are used in assessing the merits of individual applications:

- (1) Projects must contribute to the overall environment of Hong Kong, to raise environmental awareness of the local community, or mobilise the community to take action to improve the environment. For community waste recovery projects, they must contribute to promoting waste prevention and recovery in Hong Kong, raising awareness of the local community, or mobilising the community to take action in waste reduction, separation and recovery.
- (2) The benefits must accrue to the local community as a whole, and not just to individuals, a single private organisation or a consortium of private companies.
- (3) Projects must be non-profit making in nature. Income derived from a project should be used to further the project's aims.
- (4) In considering a project proposal, due consideration will be given to:
  - (a) the benefits that it will bring to Hong Kong's environment, ecology, flora and fauna etc., or the extent to which it will enhance the environmental awareness of local community. For community waste recovery projects, due consideration will be given to the benefits that it will bring to the efforts in promoting waste reduction, separation and recovery in local communities, or the extent to which it will enhance the awareness and mobilise the public to participate in waste separation and recovery;

- (b) whether there is a demonstrable need for the proposed project;
- (c) the technical and project management capability of the applicant, as well as the past performance of the applicant, including the effectiveness of past projects, and the applicant's ability to comply with the funding conditions;
- (d) whether the proposed project's schedule of implementation is well-planned and practicable, and the duration is reasonable;
- (e) whether the proposed budget is prudent, realistic and cost-effective, with full justification for every expenditure item;
- (f) whether the proposed project has alternative sources of funding support;
- (g) whether the proposed project should more appropriately be funded by other sources;
- (h) whether there is or likely to be a duplication of the work already or currently carried out by other groups; and
- (i) if recurrent expenditure is incurred, whether the proposed project has potential to become self-sufficient after a certain period of time.

16. Applicants may download application forms and other information such as a list of projects approved under ECF, from the ECF and ECC homepages on the internet.

### **Approved applications**

17. From 1 April 2012 to 31 March 2013, a total of 1,821 applications for funding support were received. Their vetting results are as follows:

(a) applications approved	782
(b) applications being processed	525
(c) applications rejected	373
(d) applications withdrawn by applicants	141
Total:	1,821

18. The total amount of funds approved for the 782 applications were about \$328 million. Under a collaboration with the Woo Wheelock Green Fund (WWGF), WWGF would provide matching fund for research projects that meet its funding objective. From 1 April 2012 to 31 March 2013, three were research projects jointly funded by the WWGF with a grant of \$855,240.00.

19. A list of the approved projects is on pages 14 to 54.

### **Accounts**

20. The auditor's report, the balance sheet, income and expenditure account, statement of changes in equity and statement of cash flows for the period between 1 April 2012 and 31 March 2013 are on pages 55 to 65.

## *Report of the Director of Audit*

**Audit Commission**  
The Government of the Hong Kong Special Administrative Region

### **Independent Audit Report**

#### **To the Legislative Council**

I certify that I have audited the financial statements of the Environment and Conservation Fund set out on pages 57 to 65, which comprise the balance sheet as at 31 March 2013, and the income and expenditure account, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### **Secretary for the Environment's Responsibility for the Financial Statements**

The Secretary for the Environment is responsible for the preparation of financial statements that give a true and fair view in accordance with section 8(1) of the Environment and Conservation Fund Ordinance (Cap. 450) and Hong Kong Financial Reporting Standards, and for such internal control as the Secretary for the Environment determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with section 8(2) of the Environment and Conservation Fund Ordinance and the Audit Commission auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial

statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Secretary for the Environment, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

### **Opinion**

In my opinion, the financial statements give a true and fair view of the financial position of the Environment and Conservation Fund as at 31 March 2013, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with section 8(1) of the Environment and Conservation Fund Ordinance.

**Environment and Conservation Fund  
Notes to the Financial Statements**

**1. General**

The Environment and Conservation Fund (the Fund) was established for the purposes of funding educational, research and other projects and activities in relation to environmental and conservation matters in accordance with section 4 of the Environment and Conservation Fund Ordinance (Cap. 450).

The address of the Fund's office is Room 605, Chinachem Exchange Square, 1 Hoi Wan Street, Quarry Bay, Hong Kong.

**2. Significant accounting policies**

(a) Statement of compliance

The financial statements of the Fund are prepared in accordance with section 8(1) of the Environment and Conservation Fund Ordinance and all applicable Hong Kong Financial Reporting Standards (HKFRSs) issued by the Hong Kong Institute of Certified Public Accountants.

(b) Basis for preparation

The financial statements have been prepared on an accrual basis and under the historical cost convention.

(c) Adoption of new/revised HKFRSs

The Fund has adopted all new/revised HKFRSs which are effective and relevant to the Fund for the current accounting period.

The Fund has not early adopted any amendments, new standards and interpretations which are not yet effective for the current accounting period. The Fund is in the process of making an assessment of what the impact of these amendments, new standards and interpretations is expected to be in the period of initial adoption. So far, it has concluded that the adoption of them is unlikely to have a significant impact on the Fund's results of operations and financial position.

(d) Revenue recognition

(i) Interest income

Interest income from bank deposits is recognised on a time-apportioned basis with reference to the principal amounts outstanding and the applicable interest rates.

(ii) Government grants

Government grants are recognised when there is reasonable assurance that they will be received and that the Fund will comply with the conditions attaching to them.

Government grants relating to income are deferred and recognised in the income and expenditure account on a systematic basis over the periods in which the Fund recognises as expenses representing the related costs for which the grants are intended to compensate.

(e) Foreign currency translation

Hong Kong dollar is the currency of the primary economic environment in which the Fund operates. Foreign currency transactions during the year are translated into Hong Kong dollars at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Hong Kong dollars at the exchange rates ruling at the balance sheet date. Exchange gains and losses are dealt with in the income and expenditure account.

(f) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value, having been within three months of maturity when acquired.

### 3. Bank deposits

### 4. Deferred income / Government grant

	<b>2013</b>	<b>2012</b>
	<b>HK\$</b>	<b>HK\$</b>

Balance at end of year	166,666,666	333,333,333

### 5. Financial risk management objectives and policies

The Fund's major financial instruments are bank deposits. The main risks associated with these financial instruments are set out below.

(a) Credit risk

In order to minimise the credit risk, the Fund's bank deposits are placed with reputable licensed banks in Hong Kong.

(b) Interest rate risk

Interest rate risk is the risk of loss arising from changes in market interest rates. Since the Fund's fixed deposits bear interest at fixed rates, their fair values will fall when market interest rates increase. However, as they are all stated at amortised costs, changes in market interest rates will not affect their carrying amounts and the Fund's deficit and equity.

The interest income of a financial instrument bearing interest at floating interest rates will fluctuate because of changes in market interest rates. The Fund is not exposed to material cash flow interest rate risk because interest income from financial instruments bearing interest at a floating rate is not significant.

The Fund's exposure to interest rate risk, based on the major interest bearing assets stated at carrying amounts at the balance sheet date and categorised by the earlier of contractual repricing dates or maturity dates, is shown below:

	<b>Repricing Period</b>			<b>Total</b>
	<b>Up to</b>	<b>Over</b>	<b>Over</b>	
	<b>3 months</b>	<b>3 months to</b>	<b>1 year</b>	
	<b>HK\$</b>	<b>HK\$</b>	<b>HK\$</b>	<b>HK\$</b>
<b>2013</b>				
Deposit with banks	<u>168,900,000</u>	<u>745,757,354</u>	<u>94,656,750</u>	<u>1,009,314,104</u>
<b>2012</b>				
Deposit with banks	<u>278,455,000</u>	<u>915,394,964</u>	<u>-</u>	<u>1,193,849,964</u>

(c) Foreign currency risk

(i) Exposure to currency risk

The fund maintained a net bank deposit denominated in Renminbi at a total of CNY41,761,737 (2012: CNY48,602,673) at the balance sheet date. Since no foreign currency rate hedging is made by the Fund for Renminbi, the carrying amount of the bank deposit in Renminbi represents the maximum exposure of the Fund to foreign currency risk.

(ii) Sensitivity analysis

It is estimated that, as at the balance sheet date, should the Renminbi strengthen/weaken by 5% (2012: 5%) against the Hong Kong dollar, with all other variables being held constant, the deficit of the Fund would decrease /increase by HK\$2,624,661 (2012: surplus would increase/decrease by HK\$3,016,632).

The sensitivity analysis above has been determined assuming that the change in foreign exchange rate had occurred at the balance sheet date and for bank deposits in existence at that date. The 5% (2012: 5%) strengthening/weakening in Renminbi represents the assessment by the Fund of a reasonably possible change in foreign exchange rate over the period until the end of next year.

(d) Liquidity risk

In the management of liquidity risk, the Fund maintains a level of cash and cash equivalents that is considered adequate to finance its operations and mitigate the effect of fluctuations in cash flows.

**6. Capital Management**

The capital of the Fund consists solely of the accumulated fund balance. The Fund's objectives when managing capital are:

- to comply with the Environment and Conservation Fund Ordinance; and
- to maintain a strong capital base for carrying out the purposes of the Fund as stated in note 1 above.

The Fund manages capital to ensure that its level is adequate to fund future grants and expenditure, taking into account projected cash flow requirements, future financial obligations and commitments.

**7. Commitments**

As at 31 March 2013, the commitments for approved grants, subject to the satisfactory progress or completion of the relevant projects, were HK\$822,318,456 (2012: HK\$726,187,746).

**8. Cost of administration of the fund**

The cost of administration of the Fund, other than the salaries and fees paid under section 6(3) of the Environment and Conservation Fund Ordinance, has been borne by the Government of the Hong Kong Special Administrative Region in accordance with section 9(1) of the Environment and Conservation Fund Ordinance.

**9. Fair values of financial assets**

All financial assets are stated in the balance sheet at amounts equal to or not materially different from their fair values.
